### **What is the reason for this webinar?**

The Decision Support Service are due to open their doors this Summer. At Inclusion Ireland, we are mindful of people who have higher support needs and how they can access their rights.

We want to make sure that there is always a presumption of our capacity, no matter what way we might happen to communicate, and that our will and preference for decisions big and small will be understood and honoured.

This event is open to everyone; people with intellectual disabilities, family members, professionals, supporters, staff, allies and friends
